## 👤 Profile

Master procrastinator with a PhD (Pending Homework Disorder) in last-minute miracles. I possess Olympic-level skills in staring at code until it magically fixes itself (it never does). Strong believer in the "CTRL+C, CTRL+V, then pray" development methodology. Fluent in typing "why is this not working" into Google and gaslighting myself into thinking I'll start early next time. Thrives in chaotic energy, coffee-fueled sprints, and existential dread at 2am. Will work for snacks and validation.
